

# **Practical Assignment 2**

## **ITRW222**

This assignment has TWO PARTS:

***Part 1***

Replace the TEST program of Assignment 1 with a GUI, you should understand that it is only necessary to replace the test part – very little other changes should be required. The user should have a form to complete to enter client detail and the detail of all clients should be displayed. Make a screenshot of your running program and submit together with all your code.

Your exact layout is a matter of own choice.

***Part 2***

Submit a ONE PAGE summary in MSWord of the process you undertook to study GUIs on your own. Write down steps (advice) for somebody who wants to use GUIs for the first time.
